

Q1 2026 Earnings Summary

Nimbus Analytics Inc. -- Finance Department

Quarter Ended: March 31, 2026

1. Executive Summary

Nimbus Analytics reported Q1 2026 revenue of \$18.4M, up 22% year-over-year and 6% quarter-over-quarter, driven primarily by Enterprise tier expansion and net revenue retention of 118%. Gross margin held steady at 76%, consistent with prior quarters.

2. Revenue Breakdown

Subscription revenue accounted for \$16.9M (92% of total), with usage-based overage billing contributing \$1.5M. Enterprise tier customers, who reference volume commitments described in the API Documentation's rate limit structure, represented 61% of subscription revenue despite being only 18% of total customer count.

3. Operating Expenses

Total operating expenses were \$14.2M, comprising R&D (\$6.1M), Sales & Marketing (\$5.0M), and G&A (\$3.1M). R&D spend increased 15% quarter-over-quarter, reflecting headcount growth in the Data Platform and Engineering teams referenced in the System Architecture Overview.

4. Profitability

Q1 2026 operating income was \$4.2M (23% operating margin), compared to \$2.1M (14% margin) in Q1 2025, reflecting improved unit economics as infrastructure costs scaled sub-linearly with usage growth.

5. Customer Metrics

Total customer count reached 1,847, up from 1,612 at the end of Q4 2025. Gross customer churn was 1.8% for the quarter, down from 2.3% in Q4 2025, which Finance attributes partly to support process improvements reflected in faster ticket resolution times.

6. Cash Position

Cash and cash equivalents at quarter-end were \$42.6M, with no outstanding debt. Free cash flow for the quarter was \$3.1M, the third consecutive quarter of positive free cash flow.

7. Outlook

Finance reaffirms full-year 2026 revenue guidance of \$78M-\$82M, with continued expectation of operating margin expansion driven by Enterprise tier mix shift.
