

Q2 2026 Earnings Summary

Nimbus Analytics Inc. -- Finance Department

Quarter Ended: June 30, 2026

1. Executive Summary

Nimbus Analytics reported Q2 2026 revenue of \$19.9M, up 24% year-over-year and 8% quarter-over-quarter, exceeding the high end of prior guidance. Growth was driven by strong Enterprise tier bookings and continued improvement in net revenue retention, which rose to 121%.

2. Revenue Breakdown

Subscription revenue was \$18.3M (92% of total), with usage-based overage billing contributing \$1.6M, consistent with the billing model described in the API Documentation. The billing correction process noted in customer support Ticket #4522 was an isolated migration-related issue and did not have a material impact on reported revenue.

3. Operating Expenses

Total operating expenses were \$15.0M, comprising R&D (\$6.5M), Sales & Marketing (\$5.3M), and G&A (\$3.2M). Sales & Marketing spend increased ahead of the planned Q3 product launch.

4. Profitability

Q2 2026 operating income was \$4.9M (25% operating margin), up from \$4.2M (23% margin) in Q1 2026, marking the fourth consecutive quarter of margin expansion.

5. Customer Metrics

Total customer count reached 2,014, up from 1,847 in Q1 2026. Gross customer churn was 1.6% for the quarter, the lowest in company history, which the Customer Success team attributes to proactive outreach following the account review process.

6. Cash Position

Cash and cash equivalents at quarter-end were \$47.8M. Free cash flow for the quarter was \$3.8M.

7. Outlook

Finance is raising full-year 2026 revenue guidance to \$80M-\$84M, reflecting first-half outperformance and strong Q3 pipeline visibility.
